DIG-IT
Digital Education
Initiatives &
Timely Solutions

DIG-IT - "Digital Education Initiatives & Timely Solutions" is an Erasmus+ project designed to provide a standard framework and assessment toolkit to address the imbalance and inequity of digital education opportunities offered at EU universities. The project contributes to how educators can design, deliver and evaluate online study units and resources that best encourage success in online learning for students. Trainers and educators will benefit as the outputs will improve online learning methods with digital technologies.

DIG-IT 's goals are to:
- Use technology in teaching;
- Correct the imbalance and inequity of digital education opportunities offered at EU universities to improve student learning opportunities;
- Achieve satisfaction and success in a digital world;
- Globalize access to free quality resources;
- Increase educational opportunities for students fulfill their satisfaction.

In addition, DIGI-IT aims to provide solutions to the barriers preventing some educators from embracing technology to enhance teaching and to explore education and industries collaborations to pioneer learning processes and accessibly, convenient continuing education. Last but not least, DIG-IT aims to create an innovative partnership model of teaching and learning, moreover, in the field of healthcare to increase the collaboration between university and healthcare industries, where the training riches care.

The intellectual outputs of the project are:

1. Quality Standards: An Innovative Interactive Digital Education Framework and Companion Evaluation Toolkit
2. Design, Deliver and Evaluate A Robust Innovative Digital Education Continuing Education Course for Academic Staff Including Healthcare Professionals
3. Designing and Delivering the Train-The-Trainer Online Course
4. Bilingual (English And Italian) Digital Resources for Healthcare Professionals to Offer Mobile Learning at The Point of Care and Enable Global Distribution
5. Website and Repository of Free Innovative Digital Education Resources to Reduce Redundancy, Cost and Time
6. Program Evaluation of Continuing Education Online Courses, Resources and Repository

The first Transnational Project Meeting was held in Valetta (Malta) on the 24th-25th October 2019 and was hosted by the University of Malta, the coordinator of the project. The meeting was fruitful, with great contribution from partners, including brainstorming and many group discussions. After a successful meeting, the partners left feeling motivated and excited to collaborate and progress with the delivery of intellectual outputs.

DIG-IT partnership

DIG-IT consortium is strategically composed of various organisations from five European countries (Malta, Cyprus, Italy, Slovenia, Finland) from different sectors.
